Aloha Franco,

Just put another one in ftp.nodc
cramp9901.tar.Z

This dataset replaces 0000513 and 0000757. It
is the substratum type, species, percent coverage
from the CRAMP dataset 1999-2001.

Please let me know the NODC Accn ID.

Just swarming in data out here...good
thing I'm heading to S.America so I
can get away from it for a while.

Hasta la vista baby,

Pat
