

Field Report

Client::	NOAA	Project::	Scientific specimen collection.
Vessel:	M/V Ronald Brown	Location:	Region 1, Site 2 , CH #666
Date:	September 11, 2003	Task:	Searching for Forcepia sponges
Report No:	001	Dive No:	Dive #3 With Innovator ROV

The following Forcepia sponge collection sites were taken while positioning the Innovator 3 ROV. There is a 500' radius circle which encompasses most of the samples. These locations are considered field ties and are subject to further review by C&C technologies.

Forcepia Sponge sample #1

Northing	9541509.66 ft	Easting	2720673.90 ft.
Latitude:	N 26° 15.3733"	Longitude:	W 83° 42.2322"

Forcepia Sponge sample #2

Northing	9541736.34 ft	Easting	2721049.54 ft.
Latitude:	N 26° 15.4091"	Longitude:	W 83° 42.1625"

Forcepia Sponge sample #3

Northing	9541824.57 ft	Easting	2720581.36 ft.
Latitude:	N 26° 15.4256"	Longitude:	W 83° 42.2477"

Forcepia Sponge sample #4

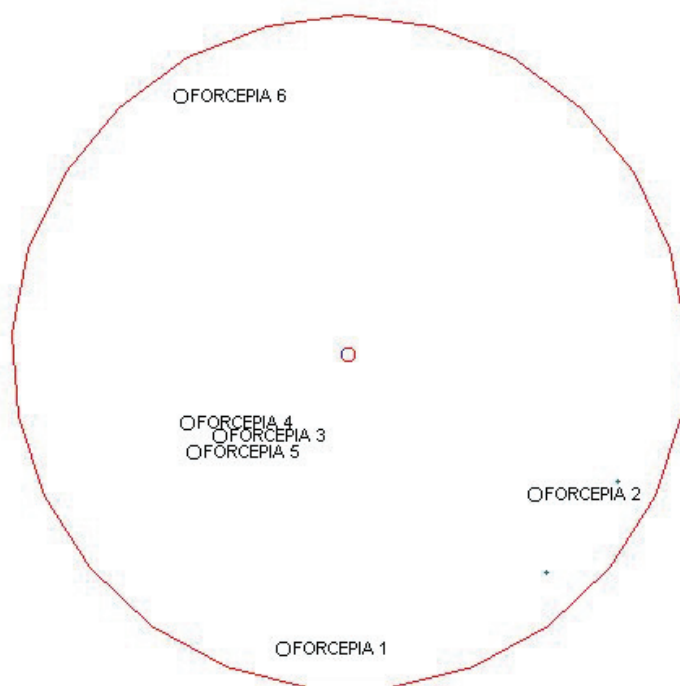

Northing	9541842.32 ft	Easting	2720532.95 ft.
Latitude:	N 26° 15.4287"	Longitude:	W 83° 42.2564"

Forcepia Sponge sample #5

Northing	9541800.36 ft	Easting	2720541.02 ft.
Latitude:	N 26° 15.4218"	Longitude:	W 83° 42.2552"

Forcepia Sponge sample #6

Northing	9542329.69 ft	Easting	2720521.65 ft.
Latitude:	N 26° 15.5091"	Longitude:	W 83° 42.3142"

Note: All Coordinates are in: World Geodetic System 1984
Universal Traverse Mercator, Zone 16 N
Central Meridian 87° 00' 00" West
Units are US survey feet
