Dear Sir/Madam:

I'm the chief scientist of "2017 Western Pacific Warm Pool Sediments and Benthos Research Cruise" (U2017-016 in the Research Application Tracking System). The R/V "Xiangyanghong10" entered the EEZ of the United States (southwest of Guam) on October 10, 2017, and left on October 11, 2017, four stations were surveyed. After two years of work, the scientific report was finished and you can see it in the attachments of this e-mail.

The copy of the scientific report will be sent to National Science Foundation, Naval Oceanographic Office and National Center for Environmental Information.

Thank you.

Best regards.

Sincerely,

Xu Dong
