

Observations and Measurements

Field Names List

Parameter	Description	Units
Species	Atlantic silverside; Menidia menidia	unitless
Collection_site	Mumford Cove Connecticut USA	unitless
Lat	Latitude of field collection site	decimal degrees
Lon	Longitude of field collection site	decimal degrees
Collection_date	Date of field collection for the spawners used in the experiment; YYYY/MM/DD	unitless
Fatty_acid	Individual fatty acid nomenclature	unitless
Female	Five females denoted by letter A B C D E	unitless
Absolute_concentration_spawning_adult	Absolute fatty acid concentration in mg per g of dry weight	milligram per gram
Absolute_concentration_eggs	Absolute fatty acid concentration in mg per g of dry weight	milligram per gram
Relative_concentration_spawning_adult	Relative fatty acid concentration in percent of total fatty concentration	percent
Relative_concentration_eggs	Relative fatty acid concentration in percent of total fatty concentration	percent
