Subj: Transfer of Historical UofW, Washington Coastal; Physical, Chemical and
Biological Data Sets (1974-1983)

Frank:

I have placed on the NODC anonymous ftp site, a total of 4 .zip files,
when opened, contain a total of 19 data and associated metadata files,
2 methodology and 2 data formats files. Data sets contain bottle cast
(1974-78), CTD (1978-83), nutrients and pigments data resulting from
surveys off the Washington coast (methodology files have the details).
Data sets were compiled, formatted and submitted by Mr. James Postel,
University of Washington, School of Oceanography.
These are "coastal ocean" data sets.
