Edits made by AAB

(This database formerly had only 2015 data and was named "Aerial_Master_2015_v05".)

"Aerial_Master_2016_v03":

*All_Flights table, added fields: "Lat", "Long", "UTMZ6X", "UTMZ6Y". Renamed "Group_" field to "Group".

*SummaryInfo table, added fields: "ConnectMin", "ConnectKilo", "Trans_ConMin", "Trans_ConKilo", "RefuelMin", "RefuelSubtFromTotal&DeadMin".

"Aerial_Master_2015_v05":

*FlightInfo table, added field: "FileDirectory".

*lut_Observer table, added Jessica Taylor.

*lut_Pilot table, added Senecio Amboni Jr.

*lut_TeamLeader table, added Cynthia Christman.

Appended 2016 data (All_Flights, FlightInfo, and SummaryInfo tables) from database "Aerial_Master_2016_v03" to "Aerial_Master_2015_v05".

Renamed "Aerial_Master_2015_v05" to "Aerial_Master_2015_2016_v06". Kept the running version number so that all edits made to the database, regardless of whether it was when only 2015 data were included, could be tracked with the version number.
