Hi, Sarah,

Thank you for sending these data and metadata files to the National Oceanographic Data Center. NODC received these data (described below in your email) on 10 October 2008.

I assigned your submission NODC Accession Number 0046838. The Accession Number is like a package service tracking number for the NODC Ocean Archive. Please reference this number when corresponding with NODC about these data.

You can find information about this archival data set at
<http://data.nodc.noaa.gov/accession/0046934>.

After further reviewing your data, creating any necessary versions of the data that are more preservable in the NODC Ocean Archive, and developing the necessary tracking metadata, NODC will publish your archival data online. Your data will then will be available for downloading as submitted via links on
<http://data.nodc.noaa.gov/accession/0046934>.

In addition, NODC may load a subset of your data into one or more product databases maintained by NODC.

Please let me know if you have any questions or if you have additional data and documentation that you would like to archive with this data set.

Regards,
Don Collins

Hi Sheri,

Attached are the files associated with a survey exploring the presence or absence of acroporid corals marked by handheld GPS during snorkel or tow surveys of shallow water (<5m) reef habitats in the
Upper Florida Keys National Marine Sanctuary (USA)

Thanks,
Sarah

NOAA Coral Reef Conservation Program (CRCP) Transmittal

Date: 10/10/2008

TO: National Oceanographic Data Center

FROM: CRCP Coral Reef Information System (CoRIS)

SUBJECT: Acropora Spatial Survey Data of the Upper Florida Keys National Marine Sanctuary 2005 -2007

Please acknowledge receipt of this dataset by providing the assigned NODC Accession Number

CoRIS Contact: Sarah O'Connor

Data Contact:

Margaret Miller
Phone: 305-361-4561

Dana Williams

NOAA, National Marine Fisheries Service, Southeast Fisheries Science
Center, Protected Resources Division

75 Virginia Beach Dr
Miami, FL
Postal Code: 33149

Phone: 305-361-4569

The product is available:

I've attached the original data files we've received to this email

The data can also be found online -

http://data.nodc.noaa.gov/coris/data/NOAA/nmfs/sefsc/acropora_gps_survey/

The only change I made to the directory was to swap out the revised FGDC metadata
Margaret provided for the survey
