Subject: data submission

I have just sent via FTP, 20 CTD cast files acquired during the 1999/2000 season by the NOAA vessel BAY HYDROGRAPHER.

The filenames have format YYDDDHHM.bha where

YY = 2-digit year  
DDD = day-of-year  
HH = hour of day (UTC)  
M = first digit of the minutes of the hour  
bh indicates the NOAA ship or field unit.

Thanks,
