## FOREWORD

The Operational Data Report series is designed to provide rapid dissemination of preliminary scientific data. The reports are intended for limited distribution and accordingly are not edited for style and format. The statutory authority for these publications is listed in previous reports in the series.

These reports provide a convenient media for releasing current continental shelf survey data for scientific and economic needs. They are particularly suitable for seismic reflection profiles which may be annotated and published without further processing.

## TABLE OF CONTENTS

	PAGE
FOREWORD. . . . .	i
LIST OF ILLUSTRATIONS . . . . .	iii
INTRODUCTION. . . . .	1
INSTRUMENTATION . . . . .	3
DATA ACQUISITION . . . . .	4
