Nelson C. Ross  
NOAA/EDS/NODC Liaison Officer  
A-003

Dear Nelson:

This tape contains the tropical Pacific XBT data from the joint French-U.S. volunteer observing ship program for 1984. The format is identical to that in which we sent you the corresponding 1983 data. The data is in 12 files, one for each month of 1984; there are 78 bytes/logical record, blocked 50 per physical record. Shipments of data from Noumea are sometimes slow, so more 1984 data may arrive this fall. If this happens, we will send you a supplemental tape.

Sincerely yours,

A handwritten signature in cursive script, reading "Stephen Pazan".

Stephen Pazan
