Mrs. Melanie Hamilton
National Oceanographic Data Center
NOAA
Washington, D.C. 20235

Dear Mrs. Hamilton,

enclosed you will find a magnetic tape containing XBT profiles from the North and South Atlantic for inclusion in the international WOCE data set. The North Atlantic data consist of 1866 profiles sampled in the period 1984-86, the South Atlantic data (672 profiles) in the period 1989-1991 along WOCE routes AX17, AX18 and AX21.

On tape, the North Atlantic profiles are stored in file NORDATL.001, the South Atlantic files in SUEATL.001. A tape directory, a chart of launching positions, an example for one XBT profile, and a list of all launching positions is attached for both files.

A copy of this tape has been send to the German Oceanographic Data Center (DOD) in Hamburg. The South Atlantic data have also been send to J.P. Rebert (ORSTOM) in Brest/France.

Yours sincerely

(Reiner Onken)
