Fire 239/240:

Fire movement continues to be monitored with use of AA and UAS to track movement. Fire bosses were used to protect values along the Mulchatna river. Resources are in place along the Mulchatna River on several sites to react and protect those values. Resources in place will begin to work and recon from the Chatna river lodge south and from Jason`s corner north. An additional type 2 helicopter with module will be in place in Illiamna to assist. Continued use of fire bosses to aid ground-based suppression modules.

Fire 205: Defensive actions are complete. Fire perimeter growth continues to be monitored by resources. Mop up around structures is complete.

Resources in and around the Lime Village area are continuing structure protection measures and completed and tested hose lay operations to support future defensive firing operations. Many of these areas were affected by smoke and slowed some operations.

Approximately 105 fire line resources are assigned to the complex including {1} Type 1 hand crews (Winema) and various overhead. {1} Type 2IA hand crew (Gannett Glacier) is also assigned to the complex. These resources continue to identify and validate known sites that require defensive action and initiate structure protection measures, as needed. Fires are being assessed daily by aerial surveillance or satellite imagery or ground reconnaissance.

The AKIMT2 green team will be in briefed tomorrow in preparations for a transfer of command.

Winds were consistent over the fire with good RH recovery. The smoke cleared out in the early afternoon allowing for better visibility and sunshine; this evening was clear with light winds. Personnel conducted burn out operations around a cabin at the mouth of Sunset Creek for structure protection. Fire behavior was pretty active with northwest winds, burning downhill. In the afternoon the fire stood up with the most action on the right shoulder and is quieting down for the night. The plan for 6/29 is to return to Sunset Creek and monitor the sprinklers and to check on the location of the burn out operation.
