

Security Review for the UAT_4Layer_MW_RSS Source Code

Results: Code could not be built and examined in its current configuration

Call No 15497

Subject

Code review request for RSS-UAT-4LayerMW

Description

If possible please do an initial code review on the following SVN link.

<https://conman.ncdc.noaa.gov/svn-repos/rsad/CDR/RSS-UAT-4LayerMW/trunk/src>

There are no build scripts or make files within the code.

Please let us know if this is absolutely necessary.

We will ask if this is available from the external PI.

[Pending - Customer Information]

Bill, we really need something to tell us how to build this otherwise, we have no idea how all of these files go together.

Thanks.
