

US/UK World Magnetic Model - 2025.0

Annual change inclination (I)

Annual Change Inclination (I_{SV})
South Polar Region
Polar Stereographic Projection
Contour interval: 1 arcminute/year

Blackout Zones
Horizontal Field (H) Strength:

- Positive (downward) change
- Negative (upward) change
- Zero change

Position of Dip Poles

- 0-2000 nT (Unreliable Zone)
- 2000-6000 nT (Caution Zone)
